404 Name: **Waldron Creek** Cause: Human Admin: Allotment

Narrative: A Steven's Village resident reported the fire to smokejumpers working cabin protection across the Yukon River on fire # 241, Fort Hamlin Hills. The resident and his boat were hired to transport the smokejumpers to the fire. One structure had been lost and efforts were made to protect others. An additional load of jumpers was requested and 6 were transported to 5 Mile airstrip, then upriver to the fire. The size up provided the fire was 1 mile long, 1/4 mile wide, and driven by 10-19 mph west winds. Ten smokejumpers are assigned to this fire.

Narrative: The CL-215s were requested for 7/9, but were diverted for use on a higher priority fire. Three SEATs replaced them and dropped retardant in the morning. Direct attack was discontinued and replaced with indirect attack efforts as the weather changed and the fire began making runs. Two type 2 crews scheduled for transport to the fire were cancelled following an increase in fire activity. A NOTAM was issued for the issue of a fuel site at Birch Creek airfield. A total of 26 personnel are assigned to the fire.

# 383	Name: Evansville		Cause:	Admin: Evansville

Narrative: Southeast winds in the morning pushed the north end of the fire back toward Bettles. Three CL-215s and air attack responded and were able to slow the spread in that area until winds shifted to the south-southwest in the evening. Crews on the north flank were withdrawn to improve the contingency line and those on the south flank were pulled to hold the tail as fire behavior became extreme mid-day. An additional Type 1 crew is critical to a successful burn out of the contingency line. Five smokejumpers from fire # 383 were reassigned to this fire and the Midnight Sun IHC will be assigned 7/10. Acreage breakdown by owner is currently 3420 Evansville and 773 Doyon. 118 personnel are currently staffing this fire.

Narrative: A precautionary evacuation was conducted of technicians from a fish weir on the Tozitna River. Two technicians stayed behind with a boat. The fire was flown in the evening by surveillance aircraft 309VS. Cooler, wetter weather moderated the fire activity. There was an eleven mile active front and smoke made accurate mapping difficult; however, an estimated increase of 48,000 acres since last mapping was reported. The area around the fish weir was obscured by smoke.

Narrative: Control efforts were hampered by the lack of escape routes and safety zones. Fire in the Sorel Creek area is backing into the Little Chena River, heading in the direction of a subdivision, and burning in black spruce. Blackhawk helicopter use was limited to 3 fuel cycles per day for air support. The fire continues eastward, spreading in limited management option, with short range spotting. A backing fir in the vicinity south of the Steese Highway worked its way downslope toward Fairbanks Creek Road. Mop up around several structures was completed and progressed east along the Steese Highway. Progression of line on the southwest flank continues successfully.
